

ANNUAL TREATMENT Prevents Corrosion and Mineral Scale

One easy-to-apply coat protects condenser coils from corrosion, salt-spray, and mineral scale. No disassembly required.

Protection Benefits

Corrosion Protection

Extends the lifespan of condenser coils by shielding them from corrosion and mineral scale.

Mineral Resistance

Guards against mineral deposits caused by evaporation, helping maintain optimal airflow and cooling power.

Energy Efficiency

Prevents efficiency loss by preserving clean coil surfaces for maximum heat exchange.

Year-Round Defense

One coat offers lasting protection through all seasons—hot summers, rainy springs, and coastal climates.

Don't Let Corrosion Win

Coil Shield offers HVAC professionals a hassle-free solution for long-term outdoor coil defense. Trusted in demanding environments, it's the go-to choice for preserving system performance and reducing costly repairs.
